history

Good design starts with art and art is reflection of the soul on the design. We are adding little nuances of art and beauty to designs, the nature of which is about purity. We are deriving inspiration from the past, and projecting it into the future. Directing strong emphasis of the modern approach into a brand new dimension, we add more value to the design.

While adding a new touch to the well-known and timeless lines, we are creating highly energetic spaces deriving inspiration from today for the future. We are combining simplicity and aesthetics in our bathroom sets in a way to evoke luxurious, smart and modern feelings.

2nd Manufacturing Site

To keep pace with the rapid change of today's world, Europe's biggest FFC manufacturing site, Incesu Manufacturing Site was put into operation in 2010.

“TURKUAZ RENEWABLE ENERGY”

“**Turkuaz Renewable Energy**” is a solar farm located on an area of 66,000 square meters and equipped with 34,000 panels. This plant has a total capacity of 13.2 MWp (megawatt peak) and generates approximately 18,105,600 kWh (kilowatt-hours) of electricity annually. This amount is sufficient to meet the annual electricity needs of approximately 4,600 households.

Furthermore, Turkuaz Renewable Energy contributes to reducing dependency on fossil fuel resources by utilizing renewable energy sources such as solar power. This not only significantly reduces our carbon footprint but also helps mitigate air and water pollution for future generations.

A successful team has many hands.

We act in team spirit and come together for a single goal which is to make bathrooms great.

blue

“Thin profile on the top prevents water to go out and protects cabinet.”

Washbasin's design is inspired by the color "blue". Calm, clear and elegant like water.

Blue washbasin reflects the elegance of this unique color to the bathrooms with the slimmest edges.

Sophisticated slim design creates a luxurious and calm atmosphere. Thanks to carefully thought-out details, the washbasin combines aesthetic with function. Thin profile on the top prevents water to go out and protects cabinet. Soft bowl design emphasizes the calming effect of the water on Blue washbasins.

Frame As the name suggests, this special set has an original design with its framed appearance

Since it has a very slim and elegant frame form, it provides a very smart look to the bathrooms. The geometric contours give an urban and modern feel to the set. Functionality and elegance are the prominent features in the design. The slim belt of the drip cap surrounding the upper surface prevents the water to overflow from the washbasin so that your furniture doesn't get wet and damaged. It also provides easy use.

The cupboard structure in which Frame is placed also provides different ways of use being compatible with Elite Set.

100 cm, 90 cm, 80 cm, 70 cm, 65cm, 60 cm, 50x38cm, 50x28cm(right) and 50x28cm(left) size options were lately added into the Frame Set.

With the serenity it exudes, the pleasure of bathing turns into a ritual. The set has a fluid internal tank design. Besides being easy to use, it gives a much sought option for those who want to add a little distinct feeling to the space. The front edge which is shaped as a bow allows it to be accompanied with a bow shaped furniture.

Would you like to bring the ancient traditions of the Mediterranean to your bathrooms in a modernized fashion?

Olive was designed exactly for this purpose, drawing inspiration from the civilization, prosperity and long life represented by the olive. Sink form of the set was inspired from the leaves of the olive tree.

The Olive Set gets this different form from a Mediterranean interpretation.

This product that you could easily complement with the other bathroom products is very decorative and helps you show off your subtle taste thanks to its oval form resembling an olive.
